

Our stunning range of bespoke wedding albums are made by Jorgensen Albums of Australia, chosen for their superb quality and built to last a lifetime.

We also offer a wide array of different options and ways to customise your album, so these prices are a guide and we recommend meeting to discuss your options in full.

Large Pro-Bound Albums

If you're looking for a lovingly hand-made, gorgeous home for your photos that exudes quality and beauty on every page, then look no further than the Pro-Bound range. Each 16" x 12" (approx. A3-sized) page has thick, custom-cut, core-board mounts for your photos; a dazzling range of cover materials from premium leather to wood, or even fluted metal, are available; and they're all professionally bound to last.

Prices start from £725 for 40 images; contact us for more information.

Large Art Albums

With clean, contemporary styling and the same quality pages and cover options as the Pro-Bound Album, the Art Albums are a stunning option for your wedding photos. They have the same eye-catching 16" x 12" page size, and the same lifetime build quality - the only difference is a lighter, simpler binding that perfectly complements our contemporary wedding photography style.

Prices start from £525 for 40 images; contact us for more information.

Parent Albums

Losing none of the quality or stunning design of the larger albums, our parent albums come in two different sizes - 10" x 7" or the smaller 7" x 5".

Prices start at £350 for 10" x 7", and £290 for 7" x 5".

Photo Books

For a contemporary take on wedding albums, we also offer colourful magazine-style printed hard-cover books of your wedding. These are becoming increasingly popular and are perfect for gifts or parent albums, and allow you to print more pictures per book than a traditional wedding album.

Price for up to 100 images: £120
